

Online Symposium on Collaborative Online International Learning

Exploiting virtual environments and global exchange to enhance higher education

Tuesday, March 16, 2021. 13:00 – 18:30

This symposium is intended to provide a forum for discussion of methods for improving education outcomes using online tools. We will report on various recent efforts at TMU and discuss these in light of the experiences of international partners and participants from other universities in Japan. The goals of the symposium are to spread awareness of the availability and virtues of online teaching tools, discuss methods for their application, and ultimately use these methods to improve education at TMU and elsewhere.

Opening address: Jun Ueno (President, Tokyo Metropolitan University)

Speakers:

Simon Tierney (Western Sydney University, Australia)

Kiyoko Yokota (State University of New York Oneonta, USA)

Ioannis Gaitanidis (Chiba University, Japan)
