Announcing the Kansai University IIGE J-MCP SDGs & Business: WEB3

Program Overview

Join your peers at Kansai University in Japan for a short-term intensive online program based on content from world-renowned startup accelerators. Learn how to validate business models and frame solutions to some of the most pressing challenges of our time under the UN's Sustainable Development Goals (SDGs).

You will build your own impact startup team, gain a better understanding of decentralized tech, foster valuable intercultural communication skills, and start building a professional network with corporate sponsors for future job opportunities!

To learn more about the program content, visit <https://luduslabs.co/index.php/faq/>

6. Program Participation Requirements

♦Access

This program will be conducted 100% online, which requires students to have:

- a stable internet connection able to handle video calls without interruption
- a quality microphone/headset
- a functioning camera-equipped PC

♦Online Platforms

[Virbela](#) , *Zoom, Discord, Miro (tentative)

- Lectures and program activities will be conducted LIVE in English via [Virbela](#). *The first meeting, however, will take place LIVE via Zoom.
- Students will be required to register an account with [Virbela](#). Further information will be provided to students upon enrollment.

♦Commitment

♦Program Hours (60 total)

Lectures: 45hrs (lectures of 90min each)
Independent & Group Work: 10hrs
Virtual Congress: 5hrs

♦Course Credits

Digital Certificates will be issued to students who successfully complete the Program. Students' host institutions may interpret the certificate to be creditable.

*Please refer to the terms and conditions outlined in the **Commitment Statement** below for further details.

♦Commitment Statement [IMPORTANT]

IIGE will notify students' home institutions of the final status of students' participation and performance in this program. Group activities are an integral and obligatory part of this program. Students who do not participate satisfactorily in their group work will not be eligible to receive a certificate of participation.

7. Digital Badges

Students who successfully complete the program will be eligible for a digital badge to be issued by IIGE (Kansai University) within 3 months of program completion.

Digital badges issued by IIGE are verifiable and meet qualifications for IMS

Global Open Badges 2.0. Students' home institutions can review the content of the completed course through the issued badge. Students' home institutions may determine digital badges to be credit-bearing at their discretion.

IIGE/Kansai University does NOT issue credits, transcripts (official or unofficial), letters of credit approval, nor any similar documentation for this program.

WHAT YOU'LL LEARN

By the end of the three-week intensive you will have:

- fostered your ability to collaborate in virtual platforms with a diverse set of peers from around the world.
- learned how to validate business models and frame solutions to some of the most pressing challenges of our time.
- formed your own impact startup team and gained an understanding of web3 tech.
- built networks with international business professionals for future job opportunities.
- earned digital certification to share on professional networking and career sites.
- increase their knowledge and awareness of SDGs and their interconnected nature and the challenges behind solving them.

WHO WILL BENEFIT?

Student Founders who want to turn an idea into an enduring business by understanding the viability of a product before investing years of time and resources.

Student Creators who want to build the future with tools and know-how that create innovative virtual experiences.

Student Leaders who are challenging the status quo and want to learn more about decentralized technologies.

COURSE BENEFITS

Actionable frameworks

Eight collaborative workshops, six engaging lectures, two guest sharing sessions, and one mentor day with entrepreneurs and knowledge experts.

Global network and lifetime community

Classmates from all over the world. Gain fresh perspectives and meet like-minded university students. Network with international business professionals for future career opportunities. Lifetime access to a private Discord community of current and future alumni members.

Flexible intensive

Three-week intensive conducted completely in VR environments (no special hardware required). Generally two 90 minute sessions a day for busy students who need flexible time schedules.

Hands-on learning

Learn in metaverse environments, collaborate with virtual online tools, and work with global peers. Build in web3.
